### Co-opted Governor

I became a governor to help *Glebe* to strategically continue to achieve the high standards they already possess.

I have experience in EdTech and I am linked to a particular class. I'm proud to be a governor at *Glebe* where I have one child in year 2 and another that will start very soon.

I'm looking forward to contributing to the great work already achieved by my fellow governors, where we'll continue to help the school achieve the highest of standards.
