

Rob Everett

Co-Opted Governor

I am currently the link Governor for anti-bullying and also an adopted Governor linked to a class within the school.

My professional career has provided me with significant experience in project management, commercial management, engineering and business strategy and I decided to take up the opportunity to become a co-opted Governor to assist the school in any way I could in its ongoing development.

Both my children attended the school and had a successful and happy time, I want to ensure other children enjoy a similar positive experience at the school.
