

## Jennifer Campbell

### Parent Governor

I have been a Parent Governor since January 2019 and both my children currently attend the school. I am the link Governor for Pupil Premium and also for Staff Wellbeing - both of which are topics I am passionate about. I am also an adopted Governor to 3 classes and being in regular contact with the teachers gives me a better understanding of how the school works which helps me be more effective in my role.

I am a Chartered Accountant and work for a large professional services firm in London.

I became a governor as a way to support the school and local community. I strongly believe that every child has a right to the best education possible and my role as a parent Governor allows me to help ensure this is achieved at Glebe.
