

Julie Brown

Co-opted Governor

I have been a governor since 2004. I became a Governor because I was keen to understand how education works and support the school, in a strategic way, which my three children would attend. At work I am involved in Learning and Development of adults in a corporate environment so learning, for whatever audience, is a subject close to my heart. I am Chair of the Finance Sub Committee and I am an adopted Governor i.e. I am linked with a particular class.
