

## Steve Youens

### Co-Opted Governor

I became a governor to use my business experience to help develop, promote and bring strategic change to the school with the aim of making sure every child mattered and achieved their best academic performance.

I am heavily involved with the management of the school through the governing body and I am a member of the promotions committee to support the school in its quest to drive up the numbers on roll.

I am also on the Finance Committee helping and supporting the financial direction of the school and steering best practice and value for money in everything the school does. I am also in a position of support on the Health & Safety working party looking at health and safety within and around the school for pupils, staff and visitors.
