Poster Competition

Recycle Now have launched a competition across lots of schools to help encourage everyone to recycle more.

They would like you to design a poster promoting their online Recycling Locator - https://www.recyclenow.com/local-recycling

You can be as creative as you like with how you design your poster.

The winner will receive £500 for their school to be spent on a sustainability-based school trip, experience or resources. The second prize will be £250. Ten runners up will win a pack of eco goodies, including five eco-themed books for the school library and two seed bombs.

The closing date to return your A4 poster to your class teacher is **Friday 26th November**.

Good luck!
