

# Key vocabulary

<b>seasons</b>	The year is divided into four seasons:
<b>observations</b>	This is what you notice when you look
<b>record</b>	Keep information about something that
<b>temperature</b>	A measure of how hot or cold something
<b>thermometer</b>	An instrument used to measure tempera-
<b>United Kingdom</b>	Made up of England, Wales, Scotland and Northern Ireland. Also known as the UK.
<b>affects</b>	Makes a difference to.
<b>waterproof</b>	Keeps out water.

Spring

Summer

Autumn

Winter

The weather **affects** what we do and what we wear. If it is rainy, we wear **waterproof** clothes when we go outside.

If it is hot, we need to wear sun cream and a sun hat.

## Wonderful Weather knowledge organiser

### Our Weather

The weather in the **United Kingdom** can change from day to day. The four **seasons** have particular weather patterns. You could keep a weather diary by measuring the **temperature** (using a **thermometer**) and **recording** your **observations**.

### Seasonal Changes

There are changes in weather in each **season**. In spring, it is often rainy and the **temperature** begins to get warmer.

In summer, the sun is much stronger. The **temperature** is warmer than in any other **season**.

In the autumn, the weather turns chillier, windier and there is often rain.

In the winter, it is often cold and frosty. It has to be freezing cold to snow.
